PRESENTATIONS • PUBLICATIONS • CONGRATULATIONS

Congratulations: Anu Matorin, M.D. recently received a Fulbright & Jaworski L.L.P. Faculty Excellence Award in the category of Teaching and Evaluation. Dr. Matorin is now eligible to become a member of the Academy of Distinguished Educators. A Medical Education Awards Ceremony and Reception will be held directly after the Academy of Distinguished Educators, “Symposium of Education Innovation,” on May 12, 2015.

Congratulations: Asim Shah, M.D. has been selected as a 2015 recipient of the BCM Rising Star Clinician Award. Dr. Shah’s outstanding contributions to clinical excellence, a consistent high level of patient care, commendable leadership skills and continuous service to our community have been exemplary. The award will be presented to Dr. Shah during a ceremony on Thursday, May 14, 2015.

Ongoing Mentoring Efforts

The Department is making efforts to facilitate mentoring for junior faculty. Below is a list of organized ongoing efforts:

A. **Early Career Faculty Liaison** Dr. Mariella Self, mmsself@texaschildrens.org)
   
   Any early career faculty member in our Department (Psychology, Psychiatry, and Social Work) is welcome to contact Mariella Self for assistance with mentoring or resource needs.

B. **Texas Regional Psychiatry-Psychology Minority Mentor Network-TRPMMN** Director of TRPMMN, Dr. Toi Harris toih@bcm.edu (BCM), and Assistant Director, Kathy Scott-Gurnell kathy.scott-gurnell@uth.tmc.edu; (UTHSC-H).

   Multiple faculty members from BCM, UTHSC-H and the community are actively involved in the planning and implementation of events.

   The TRPMMN was established in 2007 as a regional extension of the American Psychiatric Association's (APA) National Minority Fellowship Program. APA's Office of National and Minority Affairs, Baylor College of Medicine, the University of Texas-Health Science Center, national and community partners have joined to participate in this collaborative effort. The goals are three-fold: 1) To create educational, mentoring, and career opportunities for members of underserved or underrepresented groups; 2) To support programming that assists with the reduction of mental health disparities; and 3) To promote the acquisition of cultural competency in all areas of medical education.

   This network provides small-group mentoring for junior faculty, residents, and medical students. Sponsored activities include mentor dinners, a fall retreat with skills training and networking opportunities, cultural competence educational and outreach activities, recommendations for department activities (e.g., Grand Rounds speakers), and recruitment, retention and promotion efforts throughout the year.

C. **Houston Women’s Psychiatry Group-HWP** (Faculty Advisors: Dr. Toi Harris toih@bcm.edu, Dr. Alice Mao amao@bcm.edu, and Dr. Anu Matorin matorin@bcm.edu (BCM Faculty Advisors) and Dr. Sherri Simpson sherri.simpson@uth.tmc.edu and Dr. Katherine Cowan katherine.a.cowan@uth.tmc.edu (UTHSC-H Faculty Advisors)

   In 2006, the Houston Women's Psychiatry Group was established by women resident leaders (Nathalie Marie, M.D., Lindsay Raymer, M.D., Rhoda Seplowitz, M.D., Robbie Wright, M.D., Valdesha Ball, M.D., Chanda Myers-Elder, M.D., Ayanna Brown, M.D., Sherri Simpson, M.D. and Rebecca Farinas, M.D.) and faculty advisors from Baylor College of Medicine and the University of Texas Health Science Center-Houston. This group meets quarterly, and their objectives include addressing issues pertaining to careers in psychiatry, balance of professional and personal demands, and leadership in academic and non-academic settings. Group mentorship and informal individual mentor relationships have resulted in scholarly contributions, career guidance and support. Liaisons with organized psychiatry organizations such as the Association of Women Psychiatrists and the American Psychiatric Association are underway.

D. **Department Research Committee** (Chair, Dr. Tom Kosten, kosten@bcm.edu; Co-Chair: Dr. Melinda Stanley, mstanley@bcm.edu)

   This committee continues to pair early career faculty who are interested in research with senior mentors who have related expertise. Any junior faculty member who is interested in getting more involved in research may contact Drs. Kosten or Stanley.

E. **Faculty Appointments and Promotions Committee** (Chair: Dr. John Oldham, joldham@bcm.edu)

   As part of the annual review process in fall 2007, faculty was queried with regard to mentorship. On the Annual Review Form, junior faculty was asked to indicate whether or not they consider someone in the Department to be a mentor. Senior faculty was asked to name any faculty for whom they provide mentoring. A list of these pairs has been created. In addition, during the annual review of faculty and appointment of new faculty, this Committee is working to identify potential mentor pairs.

F. **FHSR Seminars** (Dr. Geri Adler, jadler@bcm.edu)

   The Thursday Seminars are designed to enhance the training experiences of Center-affiliated trainees. The weekly seminar series are especially focused on their needs and interests. The series includes three distinct formats: foundations in health service research, career development topics and fellow-led forums. The series are available September through May.
