1. Professionalism
   Each student graduating from BCM will:
   1.1. Apply ethical decision making that upholds patient and public trust
   1.2. Employ honesty, integrity, and respect in all interactions
   1.3. Demonstrate a commitment to advocate for the needs and well-being of patients, colleagues, and self
   1.4. Demonstrate caring, compassion, and empathy
   1.5. Demonstrate awareness of one’s own biases and sensitivity to diverse patients and colleagues
   1.6. Identify and fulfill responsibilities and obligations as a learner and a colleague
   1.7. Recognize and avoid conflicts of interest
   1.8. Adhere to patient confidentiality rules and regulations

2. Medical knowledge
   Each student graduating from BCM will:
   2.1. Demonstrate knowledge of established and evolving biomedical, clinical, epidemiological, and social-behavioral sciences, as well as the application of this knowledge to diagnose, manage, and prevent disease
   2.2. Utilize the principles of public health, epidemiology, and biostatistics in identifying and reducing the incidence, prevalence, and severity of disease to improve health
   2.3. Interpret diagnostic tests as they relate to common clinical, laboratory, and radiologic findings in the spectrum of health and disease

3. Patient care
   Each student graduating from BCM will:
   3.1. Demonstrate the ability to engage in an interprofessional team in a manner that optimizes safe, effective patient and population-centered care
   3.2. Develop and implement patient evaluation and management plans appropriate to all levels of patient acuity
   3.3. Develop a prioritized problem list and differential diagnosis using patient’s biopsychosocial history, medical records, physical exam findings, and diagnostic studies
   3.4. Obtain consent for and perform basic technical procedures competently
   3.5. Perform comprehensive and focused biopsychosocial exams in a variety of patient care settings and recognize when each is indicated
   3.6. Assess health risks using gender- and age-appropriate criteria and recommend potential preventive and therapeutic interventions
   3.7. Select and interpret diagnostic tests accurately
   3.8. Interpret physical findings accurately
   3.9. Utilize critical thinking to provide appropriate evidence or support for clinical decisions and management of diseases
   3.10. Provide timely and accurate documentation of all assessment, plans, interventions, and orders – including prescriptions and transfers-of-care between providers or settings
4. Interpersonal and communication skills
   Each student graduating from BCM will:
   4.1. Demonstrate patient-centered interview skills in order to create and sustain a supportive and therapeutic relationship with patients and families
   4.2. Demonstrate the ability to communicate effectively, efficiently, and accurately as a member or leader of a health care team
   4.3. Demonstrate the ability to effectively communicate and collaborate with colleagues, other health care professionals, or health related agencies
   4.4. Apply verbal and written medical communication skills to basic and advanced medical scenarios

5. Practice-based learning and improvement
   Each student graduating from BCM will:
   5.1. Identify personal strengths and deficiencies in one’s knowledge, skills, and attitudes to integrate feedback and set personal improvement goals
   5.2. Use and manage technology to access medical information resources to expand personal knowledge and make effective decisions
   5.3. Apply principles and practices of evidence-based medicine (EBM) in making decisions about prevention, diagnosis, and treatment of disease

6. Systems-based practice
   Each student graduating from BCM will:
   6.1. Analyze the roles insurance plans and health care providers play in the health care system and how they affect providers’ and patients’ behavior
   6.2. Provide appropriate referral of patients, including ensuring continuity of care throughout transitions between providers or settings, and following up on patient progress and outcomes
   6.3. Examine the role of quality improvement and clinical pathways in optimizing health systems
   6.4. Demonstrate the rationale for reporting and addressing events that could affect patient safety

7. Leadership
   Building upon the foundation of competence in the other six domains, each student graduating from BCM will be able to:
   7.1. Demonstrate the ability to work effectively as a member of an interprofessional health care team
   7.2. Demonstrate the ability to give and receive behaviorally-specific feedback
   7.3. Utilize skills that enhance the learning environment and team functioning
