<td>The Opiate Epidemic: What Price for Pain Management</td>
<td>Thomas Kosten, M.D.</td>
<td>JH Waggoner Professor of Psychiatry, Menninger Department of Psychiatry, Baylor College of Medicine</td>
<td>Room MCHA-AEC-A and B</td>
</tr>
</tbody>
</table>

Objectives: At the conclusion of this session, participants should be able to:
- identify analgesic over-prescribing as the precipitant of the 10 year epidemic of opiate abuse;
- diagnose a chronic pain patient’s opiate use disorder (OUD);
- evaluate the contribution of opiate tolerance, dependence and opioid induced hyperalgesia to this OUD;
- provide several treatment options for the OUD.

<td>Room MCHA-AEC-A and B</td>
</tr>
</tbody>
</table>

Objective: At the conclusion of this session, participants should be able to:
- distinguish the ethical basis of therapeutic relationships from the scientific-technological basis of techniques;
- identify ethical aspects of common therapeutic factors;
- articulate scientific contributions to understanding ethical aspects of relationships.

This activity has been designated by Baylor College of Medicine for 1 credit of education in medical ethics and/or professional responsibility.

SEE OTHER SIDE
October 19, 2016  A Global Perspective of Psychiatry: Past and Present
