May 3, 2017  The Ups and Downs of Uppers: Iatrogenic Stimulant Addiction in America

Daryl Shorter, M.D.
Assistant Professor
Menninger Department of Psychiatry
Baylor College of Medicine

Michele Villa-Castillo, M.D.
PGY-IV Psychiatry Resident (General)
Menninger Department of Psychiatry
Baylor College of Medicine
Houston, Texas

Objectives: At the conclusion of this session, participants should be able to:
- describe the impact of increased psychostimulant prescribing on addiction risk in the US;
- explain the challenges of identifying misuse and diversion of psychostimulants in clinical practice;
- distinguish between appropriate use of psychostimulants in the treatment of medical/psychiatric illness and problematic/at-risk prescribing.

May 10, 2017  Recordkeeping: The Busy Intersection of Compliance, Risk Management, Ethics and Privacy

Kim-Lan Czelusta, M.D.
Assistant Professor, Menninger Department of Psychiatry
Baylor College of Medicine

James R. Banfield, J.D.
Director, Risk Management and Associate General Counsel
Baylor College of Medicine

Christina N. Olson, RHIT, CHC, CCS, CCSP, CPMA
Compliance Education Manager
Baylor College of Medicine
Houston, Texas

Objectives: At the conclusion of this session, participants should be able to:
- explain the importance of keeping thorough and accurate records of the mental health encounter;
- summarize the purpose and permissibility of keeping separate “psychotherapy notes”;
- describe the ethical considerations in documenting sensitive patient information (what to include and what to exclude);
- explain billing compliance issues and the documentation necessary to support billing.

This activity has been designated by Baylor College of Medicine for 1 credit of education in medical ethics and/or professional responsibility.

SEE OTHER SIDE
May 17, 2017  Faculty Meeting

May 24, 2017  NO GRAND ROUNDS
American Psychiatric Association Meeting

May 31, 2017  Mental Health Implications of Maternity Leave Policy

Elisabeth Netherton, M.D.
PGY-IV Psychiatry Resident (General)
Baylor College of Medicine

Osarumen Nicole Doghor, M.D.
Assistant Professor
Menninger Department of Psychiatry
Baylor College of Medicine
Houston, Texas

Objectives: At the conclusion of this session, participants should be able to:
- describe features of maternity leave in the US;
- list psychiatric symptoms common to the postpartum period;
- describe potential mental health implications of limited access to maternity leave.

Target Audience, Needs, Educational Methods, Activity Evaluation: Physicians, residents, fellows, and healthcare professionals from a variety of disciplines need to be updated in a wide variety of topic areas which address all aspects of psychiatric practice including psychopharmacology, psychodynamic psychotherapy, ethics in psychiatric practice, and the treatment of select patient population. This activity aims to address the continuing interest of mental health practitioners in contemporary thinking and research regarding a wide variety of clinical issues confronted in clinical practice. Given the continuous expansion of the understanding of the biological mechanisms for some psychiatric illnesses, all mental health professionals’ educational needs are well served by ongoing exposure to the latest clinical research. Educational methods will include lectures, case presentations, audio/video presentations, panel discussions, and question & answer sessions. Participants will be asked to complete an activity evaluation.

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Baylor College of Medicine designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
