Welcome to the Bobby R. Alford Department of Otolaryngology. We are very pleased that you have chosen us for your care. In order for us to meet your needs and manage your care effectively, it is important that we share the following information with you.

**BEFORE YOUR APPOINTMENT:**
If you are a new patient to our center, it is important that you request your medical records (operative reports, lab testing, diagnostic imaging, pathology reports) and bring them with you to your appointment. This medical record information is vitally important to your care and is necessary in order for the doctor to complete a thorough assessment upon your first visit. If you do not have your medical records available at your first visit, then there may be limitations on what we can do during your first visit and it is possible that you may need to return for a second visit once those records are made available to our office. In addition, please bring relevant past CT/MRI/Pet Scan films or CDs.

**DAY OF YOUR VISIT:**
Please consider traffic and parking time when you plan your trip to the clinic so that you can arrive on time. New Patients should arrive 15 minutes prior to their appointment to complete check in procedures. If you are more than 20 minutes late you may be asked to reschedule or wait to be seen at the end of clinic.

You will be asked to fill out a medical questionnaire (included in this mailing/email) regarding your health, to review documents regarding your health privacy and about charges for certain tests that may not be covered by your insurance.

1. The questionnaire must be filled out before going into the exam room.
2. Please be sure you bring a photo I.D., your insurance card(s), and co-payment amount.
3. If this is your first visit to our center please verify that your records have been faxed to our office prior to your scheduled appointment.
4. Make sure you sign-up for MyChart during your visit.

**Services currently available through MyChart include:**
- Secure messaging with your physician
- Online appointment requests
- Prescription renewal
- Viewing test results
- General health information
- Making payments
SCHEDULING AN APPOINTMENT:
Please make your appointments by calling 713-798-5900. If you are visiting the clinic and need to set up a return appointment with your doctor for a later date, you may do so at the front desk as you checkout.

Please have your insurance, referral information and routine pharmacy phone number and location available at the time you call.

1. If you have an HMO plan, a referral from your primary care physician is required. It is your responsibility to get the referral. If this referral is not in place at the time of your visit, you will be responsible for payment in full at the time of service. You should call your primary care physician’s office prior to your visit to ensure this is complete.

2. Your pharmacy information is recorded so that your prescriptions can be sent electronically to that specific pharmacy when needed.

3. Your insurance may be re-verified at every visit, as many insurance policies are approved on a 30 day basis. Please bear with us on this seemingly repetitive issue.

CHANGING AN APPOINTMENT:
A 24 hour minimum advance notice to cancel or change an appointment is appreciated so that your appointment time may be given to another patient in need of care.

PRESCRIPTION REFILLS:
Requests for prescription refills are accommodated by having your pharmacy send a refill request by fax or through our electronic medical record system. For mail order requests, please leave a message with the patient resource center for a prescription refill. Refills can also be requested electronically via Mychart. Prescription refills will be processed by the end of the following work day. To assure that there are no disruptions in your prescription, please allow two day notice on refills. Prescriptions for controlled substances or those that require prior authorizations may require more time to process. Please no after hours or weekend refill requests.

COMMUNICATION WITH YOUR PHYSICIAN:
If you have questions about your care or need to speak with the physician or physician’s staff, we encourage our patients to contact their healthcare team via Mychart. If you need a Mychart activation code please call 713-798-6928 or email mychart@bcm.edu. If you are experiencing an urgent, health-related problem, do not attempt to use MyChart to communicate with your healthcare team. Please call 911 or your physician’s office immediately at 713-798-5900.

New Patient
General Intake Form

BCM has developed this **General Intake Form**, which is common to all of our offices. Your answers will be accessible at any future BCM office visit in your electronic chart. To provide additional information important to your appointment today, each department has created a **Specialty Intake Form** with questions specific to their department, so please ensure you fill this out as well.

Patient Name _______________________ Date of Birth _________ Today’s Date _________

**ALLERGIES** Please list any allergies or reactions to medication(s):

LIFESTYLE CHOICES

Tobacco
Do you smoke? □ Yes □ No □ Quit

Do you use smokeless tobacco? □ Yes □ No □ Quit

How many years? _____

How many packs/cans per day? _____

Are you ready to quit? □ Yes □ No

If you quit using tobacco, when did you stop? ________

Alcohol

Do you consume alcohol? □ Yes □ No □ Quit

How many drinks containing alcohol do you consume in a week? _____

(1 drink = 1 glass of wine = 1 can of beer = 1 shot of liquor)

Please also complete the **Specialty Intake Form** for this office.

**Thank you for choosing Baylor College of Medicine.**
Welcome to our practice. We appreciate the confidence and trust that you place in us. Our office is focused on providing you with high quality care. To that end patients coming to our physicians may require additional services for a thorough evaluation of their condition.

Please consult with your physician during your visit for any specific questions regarding these services, which may include:

- Fiber optic exam of nasal passages, sinus cavities or throat and vocal cords (endoscopy or laryngoscopy)
- Audiology (hearing) testing
- Speech therapy
- Epley maneuver
- Cerumen removal

**PLEASE NOTE:** The procedures above, and many other procedures performed in the clinic, are additional services that are categorized as “surgical procedures” by the insurance industry.

Fees for these additional services are submitted to your insurance company as separate item(s) **in addition to the office visit charges**. If your insurance covers these services, you will be obligated to pay any deductible, coinsurance or copay amounts. In the event that services are not covered by your insurance, you will be responsible for the fees associated with the services.

Please discuss any concerns about the services with your healthcare provider. We also have staff in our practice with billing expertise who can answer further questions.

Thank you for choosing our practice. We look forward to participating in your healthcare needs.
