At Baylor College of Medicine, we offer current healthcare information and high quality educational opportunities for the Houston community. Our events over the next few months cover important topics like how to stay healthy as you age and the role of government in public health. We also invite you to join the Baylor team and team captain, Carli Lloyd, two-time Olympic gold medalist and Baylor spokesperson, in the 2018 Susan G. Komen Race for the Cure.

In this issue, we announce new details about our 2018 Texas on My Mind celebration, honoring the community-minded McIngvale Family and raising funds to support mental health research and treatment in Baylor's Menninger Department of Psychiatry and Behavioral Sciences.

* New!* Evening Reception
Advances in Sports Medicine: Staying at the Top of Your Game
6 to 7:30 p.m. Tuesday, Jan. 16, 2018 at The Briar Club

Join us for a special evening reception with our very own jock turned doc, Mark Adickes, M.D., former NFL offensive lineman and Chief of the Division of Sports Medicine at Baylor College of Medicine. Dr. Adickes and Rosalyn Nguyen, M.D., Assistant Professor of Physical Medicine and Rehabilitation, will discuss recent advances in sports medicine made at the College and ways you can prevent injury and stay in top shape as you age.

Join Carli Lloyd, Team Captain for Baylor College of Medicine, at Komen Race for the Cure
Saturday, Jan. 27, 2018

We are proud to partner with Carli Lloyd to empower Houstonians to make confident healthcare decisions. Join Carli Lloyd and the Baylor College of Medicine team on January 27th at Race for the Cure.

When you sign up for Komen Race for the Cure, your dollars are used to support breast cancer education, research, advocacy and social support. With your help, Komen is able to fund research projects at Baylor College of Medicine.
Public Policy or Police State? The Appropriate Reach of Government in Health Interventions
Noon Thursday, Feb. 8, 2018
at Grappino di Nino

What is the role of the government in encouraging healthy behaviors? Does the government have a different responsibility to respond to infectious diseases like Ebola, bird flu or Zika than it does for chronic diseases like obesity, diabetes or cancer? Join Stephanie Morain, Ph.D., M.P.H., as we grapple with these questions about the role of government in keeping us healthy—and what role the public should have in shaping government policy for public health.
