At Baylor College of Medicine, we offer current healthcare information and high quality educational opportunities for the Houston community. Our events over the next few months cover important topics like protecting yourself from exposures following Hurricane Harvey, understanding the growing knowledge about the brain and how to stay sporty and healthy.

In this issue, we also offer a link to the 2017 Baylor College of Medicine Annual Report that highlights discoveries and mission achievements from the last year.

Facing Ethics Head-On: Neuroethics and Our Growing Understanding of the Brain
Noon Thursday, Nov. 9, 2017
at Grappino di Nino

Neurogenomic information could soon help identify who is at risk of mental health disorders even before symptoms are observed. It could also help prevent the development of disorders, diagnose disorders, select treatment options and improve clinical outcomes. Join Gabriel Lazaro-Munoz, Ph.D., J.D., as we examine the current status of psychiatric genomics.

The Environment and Your Health and Annual President's Update
11:30 a.m. Tuesday, Nov. 14, 2017
at The Briar Club

Is your environment making you sick? Cheryl Walker, Ph.D., Director of the Center for Precision Environmental Health, will examine how your everyday surroundings and exposures following a natural disaster like Hurricane Harvey can affect a range of health issues. Paul Klotman, M.D., President, CEO and Executive Dean will give a College update.

Advances in Sports Medicine: Staying at the Top of Your Game
6 to 7:30 p.m. Tuesday, Jan. 16, 2018
at The Briar Club

Join us for a special evening reception with our very own jock turned doc, Mark Adickes, M.D., former NFL offensive lineman and Chief of the Division of Sports Medicine at Baylor. Dr. Adickes and Rosalyn Nguyen, M.D., Assistant Professor of Physical Medicine and Rehabilitation, will discuss recent advances in sports medicine and ways you can prevent injury and stay in fighting shape as you age.
