Evidence-Based Practice in the Treatment of Schizophrenia: Promoting Recovery with Psychosocial Interventions

Objectives: At the conclusion of the session, the participants should be able to:
- Explain the principles of the recovery model.
- Distinguish important treatment targets for psychosocial interventions for adults with schizophrenia.
- Identify evidence-based psychosocial interventions and recovery-oriented practices for adults with schizophrenia and their roles in team-based care for this population.

Target Audience and Needs: Physicians, residents, fellows, nurses, social workers, and healthcare professionals from a variety of disciplines need to be updated in a wide variety of topic areas which address all aspects of psychiatric practice including psychopharmacology, psychodynamic psychotherapy, ethics in psychiatric practice, and the treatment of select patient population.

Educational Methods: Educational methods will include lectures, case presentations, literature review, and panel discussion.

Activity Evaluation: Participants will be asked to complete a session evaluation.

Accreditation/Credit Designation: Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Baylor College of Medicine designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
