Menninger Department of Psychiatry
Baylor College of Medicine

Cognitive-Behavioral Therapy for Obsessive-Compulsive Disorder

Objectives: At the conclusion of the session, the participants should be able to:

- Distinguish the core components of cognitive-behavioral treatment of obsessive-compulsive disorder (OCD).
- Develop basic understanding of exposure and response prevention.
- Identify the available empirically supported treatments for OCD.

Target Audience and Needs: Physicians, residents, fellows, nurses, social workers, and healthcare professionals from a variety of disciplines need to be updated in a wide variety of topic areas which address all aspects of psychiatric practice including psychopharmacology, psychodynamic psychotherapy, ethics in psychiatric practice, and the treatment of select patient population.

Educational Methods: Educational methods will include lectures, case presentations, literature review, and panel discussion.

Activity Evaluation: Participants will be asked to complete a session evaluation.

Accreditation/Credit Designation: Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Baylor College of Medicine designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
