SEE OTHER SIDE
February 21, 2018  Glutamatergic and Inflammatory Mechanisms for Experimental
Interventions in Suicide Prevention

Marijn Lijffijt, Ph.D.
Assistant Professor
Baylor College of Medicine and Michael E. DeBakey VA Medical Center
Houston, Texas

Objectives: At the conclusion of this session, participants should be able to:
• Distinguish between various suicidal behaviors and explain risk factors.
• Identify the role of glutamatergic processes for treatment of acute suicidality.
• Explain the role of the kynurenine pathway on glutamate dysfunction in suicidal behaviors.

February 28, 2018  Faculty Meeting

Target Audience, Needs, Educational Methods, Activity Evaluation: Physicians, residents, fellows, and healthcare professionals from a variety of disciplines need to be updated in a wide variety of topic areas which address all aspects of psychiatric practice including psychopharmacology, psychodynamic psychotherapy, ethics in psychiatric practice, and the treatment of select patient population. This activity aims to address the continuing interest of mental health practitioners in contemporary thinking and research regarding a wide variety of clinical issues confronted in clinical practice. Given the continuous expansion of the understanding of the biological mechanisms for some psychiatric illnesses, all mental health professionals’ educational needs are well served by ongoing exposure to the latest clinical research. Educational methods will include lectures, case presentations, audio/video presentations, panel discussions, and question & answer sessions. Participants will be asked to complete an activity evaluation.

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Baylor College of Medicine designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
