V-STOP II:
A Pilot Study on Comprehensive Behavioral Self-management Treatment for Underserved Stroke Survivors in Texas

Objectives: At the conclusion of the session, the participants should be able to:

- Evaluate the need for comprehensive and accessible stroke self-management treatment.
- Identify the effects of psychological distress on engagement in stroke self-management treatment.
- Evaluate the benefits of using an integrated treatment approach for improving stroke self-management outcomes.

Target Audience and Needs: Physicians, residents, fellows, nurses, social workers, and healthcare professionals from a variety of disciplines need to be updated in a wide variety of topic areas which address all aspects of psychiatric practice including psychopharmacology, psychodynamic psychotherapy, ethics in psychiatric practice, and the treatment of select patient population.

Educational Methods: Educational methods will include lectures, case presentations, literature review, and panel discussion.

Activity Evaluation: Participants will be asked to complete a session evaluation.

Accreditation/Credit Designation: Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Baylor College of Medicine designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
