Wednesday, October 31, 2018
10:30 – 11:30 AM
Baylor College of Medicine, McNair Campus
Bobby R. Alford Educational Center, Room MCHA-AEC-A and B

Zerrin Emel Kayatekin, MD
Associate Professor
Menninger Department of Psychiatry
Baylor College of Medicine

Psychotherapeutic Hospital Treatment

Objectives: At the conclusion of the session, the participants should be able to:
- Develop a formulation of the person, having the psychotherapeutic hospital serve as a venue where the person/patient repeats his/her scripts with a hope for reparation.
- Differentiate multiple venues of therapeutic interventions available and operating in a psychotherapeutic hospital.
- Formulate and implement the therapeutic interventions through the venues that are most suitable, at the moment, for a particular patient.

Target Audience and Needs: Physicians, residents, fellows, nurses, social workers, and healthcare professionals from a variety of disciplines need to be updated in a wide variety of topic areas which address all aspects of psychiatric practice including psychopharmacology, psychodynamic psychotherapy, ethics in psychiatric practice, and the treatment of select patient population.

Educational Methods: Educational methods will include lectures, case presentations, literature review, and panel discussion.

Activity Evaluation: Participants will be asked to complete a session evaluation.

Accreditation/Credit Designation: Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Baylor College of Medicine designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
