Bobby R. Alford Educational Center, Room MCHA-AEC-A and B

September 4, 2019
The Psychiatric Treatment of Physicians: A 40-Year Retrospective
Glen O. Gabbard, MD
Clinical Professor of Psychiatry
Menninger Department of Psychiatry
Baylor College of Medicine

Objectives: At the conclusion of this session, participants should be able to:
- Identify the common issues that lead physicians to seek treatment.
- Trace the changes in common complaints from the 1980s to the present.
- Define how the term "moral injury" applies to the current concerns of physicians.

September 11, 2019
Preparing for the Next Storm, Collaborating with the City of Houston to Evaluate Aspects of Emergency Mental Health Utilization Following Hurricane Harvey
John Saunders, MD
Assistant Professor, Menninger Department of Psychiatry
Baylor College of Medicine

Sophia Banu, MD
Associate Professor, Menninger Department of Psychiatry
Baylor College of Medicine

Asna Matin, MD
Assistant Professor, Menninger Department of Psychiatry
Baylor College of Medicine

Asim A. Shah, MD
Professor, Menninger Department of Psychiatry
Baylor College of Medicine

Objective: At the conclusion of this session, participants should be able to:
- Identify high utilization areas of emergency mental health services in Houston before and after Hurricane Harvey.
- Review relevant suicide statistics in Harris County, in a limited period before and after Hurricane Harvey from the Medical Examiners’ Offices of Dallas and Harris County.
- Assess correlations between other variables like FEMA applications, education level, FEMA flood data and mental health emergency services utilization or suicide rates after Hurricane Harvey.
Cognitive Aging: What Every Mental Health Worker Should Know

Dan German Blazer II, MD, MPH, PhD
JP Gibbons Professor Emeritus of Psychiatry and Behavioral Sciences
Duke University School of Medicine

Objectives: At the conclusion of this session, participants should be able to:

- Define and recognize cognitive aging in psychiatric patients.
- List three areas where there is significant evidence for intervening in cognitive aging.
- List at least three areas where interventions for cognitive aging have not been proven effective.

Target Audience and Needs: Physicians, residents, fellows, nurses, social workers, and healthcare professionals from a variety of disciplines need to be updated in a wide variety of topic areas which address all aspects of psychiatric practice including psychopharmacology, psychodynamic psychotherapy, ethics in psychiatric practice, and the treatment of select patient population.

Educational Methods: Educational methods will include lectures, case presentations, literature review, and panel discussion.

Activity Evaluation: Participants will be asked to complete a session evaluation.

Accreditation/Credit Designation: Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Baylor College of Medicine designates this live activity for a maximum of 1.0 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Menninger Department of Psychiatry and Behavioral Sciences, Baylor College of Medicine, (License Number: 4066) is approved as a provider of continuing education in Social Work by the Texas State Board of Social Worker Examiners. This activity has been approved for .1 CEU.

This series is broadcast to The Menninger Clinic, Classroom(s): 5128 & 5130, Texas Children’s Hospital, Psychiatry Department, Conference Room #180.22, and the Harris Health System – Ben Taub Hospital, Conference Room: 2.133, NPC, 2nd Floor
