Recommendations:

- Label and organize these documents so that reviewers can easily identify and refer to them.
- Summarize learners’ numeric ratings of your teaching into tables; do NOT include copies of individual evaluation forms.
- As desired, include short narrative descriptions of the documentation you include.
- We strongly recommend that you include a limited number of letters of support: one-two from learners, one-two from peers, and one-two from superiors. Maximum of six letters are allowed.
